DSV™

VENTURI ORIFICE STEAM TRAP

Description

The Delta DSV™ Venturi Orifice Steam Trap is designed for multipurpose applications from line drainage and trace heating, through to small to medium heat exchanger applications. The trap has a primary and secondary integrated strainer and a removable orifice insert. The body of the trap does not have to be removed from the line for maintenance purposes. Access to the insert orifice and both primary and secondary strainers is via the top and bottom caps.
